BULK PELLETS

CONTRAC® RODENTICIDE

KILLS RATS, MICE & MEADOW VOLES*

Kills Warfarin Resistant Norway Rats

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Back Panels for additional First Aid and precautionary statements, and Directions For Use.

ACTIVE INGREDIENT:
Bromadiolone (CAS #28772-56-7): . . . . . . . . . 0.005%

OTHER INGREDIENTS†: . . . . . . . . . . . . . . 99.995%

†Contains Denatonium Benzoate

TOTAL 100.000%

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat.
**DIRECTIONS FOR USE** (Continued from other panel)

otherwise immobilized. Stronger bait stations are needed in areas open to hobbled livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.

3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, non-target mammals, or birds may have access to the bait placement location.

**USE RESTRICTIONS:** This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Red rat (Rattus rufossissimus), Cotton rat (Sigmodon hispidus), Eastern harvest mouse (Reithrodontomys humulis), Golden mouse (Ochrotomys nuttalli), Polish rat (Rattus rattus), Meadow vole (Microtus pennsylvanicus), White-throated woodrat (Neotoma albigula), Southern plains woodrat (Neotoma micropus), and Mexican woodrat (Neotoma mexicana). This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commensal rodent infestations and/or to harboring or attracting rodent infestations provided that infestations of these rodents have been confirmed. Efforts should be made to remove food trash, garbage, clutter and debris. Bait must be placed no less than 6 inches away from active rat burrows. Do not broadcast bait.

Do not use in sewers. Do not place near or inside ventilation duct openings. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations. Do not sell this product in individual containers holding less than 16 pounds of bait.

**SELECTON OF TREATMENT AREAS:** Determine areas where rats, mice, or meadow vole* will most likely find and consume the bait. These areas are along walls, by gnawed openings, in or beside burrows, in corners, and wherever children, pets, non-target mammals, or birds may have access to the bait placement location. Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, non-target mammals, or birds may have access to the bait placement location.

**BULK PELLETS**

**KILLS RATS, MICE & MEADOW VOLES**

**Kills Warfarin Resistant Norway Rats**

Norway rats, roof rats, and house mice may consume a lethal dose in one night’s feeding with first dead rodents appearing four or five days after feeding begins.

**ACTIVE INGREDIENT:** Bromadiolone (CAS #28772-56-7): 0.005%

**OTHER INGREDIENTS:** 99.995%

**Contains Denatonium Benzoate** TOTAL: 100.000%

**KEEP OUT OF REACH OF CHILDREN**

CAUTION: Harmful if swallowed. Harmful if inhaled. Avoid breathing dust. Causes moderate eye irritation. Keep out of reach of children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse.

All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Do not store in sewers. Do not contaminate water, food, feedstuffs, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in USDA inspected facilities, this product must be applied in tamper-resistant bait stations.

Do not sell this product in individual containers holding less than 16 pounds of bait.

**ENVIROMENTAL HAZARDS**

This product is extremely toxic to mammals and birds. Dogs, cats, and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. This pesticide is toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or inure.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USER SAFETY REQUIREMENTS**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should remove clothing/PPE immediately if pesticide gets inside. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing. Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**Hazard to Humans and Domestic Animals**

CAUTION: Harmful if swallowed. Harmful if inhaled. Avoid breathing dust. Causes moderate eye irritation. Keep out of reach of children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse.

All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed. Harmful if inhaled. Avoid breathing dust. Causes moderate eye irritation. Keep out of reach of children, domestic animals and pets. Do not get in eyes or on clothing. Remove and wash contaminated clothing before reuse.

All handlers (including applicators) must wear shoes plus socks, and gloves. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**TREATMENT FOR PET POISONING**

If in Eyes

1. Hold eyes open and rinse slowly and gently with water for 15–20 minutes.
2. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
3. Call a poison control center, or doctor, or 1-877-854-2494 at once.

If Inhaled

1. Move person to fresh air.
2. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
3. Call a poison control center or doctor for further treatment advice.

If Swallowed

1. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.
2. Have a person sip a glass of water if able to swallow.
3. Do not induce vomiting unless told to do so by the poison control center or doctor.

**NOTE TO PHYSICIAN**

If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K1 intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**If animal eats bait, call veterinarian or 1-877-854-2494 at once.**

**Anticoagulant Bromadiolone:** For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K1. If needed, check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

**If animal eats bait, call veterinarian or 1-877-854-2494 at once.**

**TREATMENT FOR PET POISONING**

**First Aid**

**If Swallowed**

1. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.
