PROTECTA®

MOUSE BAIT STATIONS

MORE OPTIONS OFFERING GREATER VERSATILITY

PRODUCT FEATURES:

› Quality
  – Built with special plastic polymer to extend the field life of the station and to withstand extreme environmental conditions
  – Designed with durable, one-piece construction living hinge

› Performance
  – Unique, patented design of bait stations leads rodents directly to the bait inside
  – Bait posts or bait chamber walls designed to hold bait securely in station, increasing security of these tamper-resistant stations

› Versatility
  – Place bait stations wherever rodents travel – around the perimeter of buildings, along rodent runways, in doorways, under pallets
  – Protecta Bait Station designs offer the greatest variety of placements to fit every baiting situation
  – Locking mechanism on Bell’s bait stations keep bait away from intruders – one key fits entire range of stations
