KILLS RATS & MICE

- All-Weather Formula
- Mold & Moisture Resistant
- Can Be Used Indoors or Out
- Kills Anticoagulant-Resistant Norway Rats

ACTIVE INGREDIENT: Cholecalciferol (CAS #67-97-0) . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . ...
**First Aid**

**IF SWALLOWED:**

Do not induce vomiting unless told to do so by the poison control center or doctor. Have person sip a glass of water if able to swallow. If person is unconscious, do not give anything by mouth.

**IF IN EYES:**

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Wash with plenty of soap and water.

**IF ON SKIN:**

Wash with plenty of soap and water.

**NOTE TO PHYSICIAN**

May cause hypercalcemia. Serum calcium levels should be determined before and after treatment. Additional precautionary statements.

**DIRECTIONS FOR USE**

(Continued from other panel)

**CAUTION:**

Do not apply directly to food or feed crops. Do not apply to food-stuff or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in ACI reporting facilities, the product must be applied to temporary or stationary structures.

**STORAGE AND DISPOSAL**

Store in a cool, dry, well-ventilated location. Do not contaminate water, food, feed crops, or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. This product is considered a solid pesticide and must be disposed of properly. Do not broadcast bait.

**FOLLOW-UP:**

Check for additional infestations. In areas where rats or mice are common, establish permanent bait stations and replenish as needed. Where a continuous source of bait is available, rats and mice are likely to continue feeding for an extended period. Store unused bait and remove any signs of recent feeding on bait by rats. Use 1 bait block per placement. Space placements at intervals of 8 to 12 feet in infested areas. Maintain an uninterrupted supply of fresh bait for 15 days or until there no longer are signs of recent feeding on bait by rats.

**NOTE TO VETERINARIAN**

When animals are suspected to have eaten this product, induce vomiting by using hydrogen peroxide or by using chemical emetics. If animal eats bait, call veterinarian or 1-877-854-2494 at once. Determine areas where rats or mice are most likely to feed. Routine inspection of baits is needed to determine the effectiveness of the treatment. Continue monitoring serum calcium and treat as necessary for hypercalcemia (Reference, AMA Drug Evaluations, Third Edition (1977), Chapter 16, pp. 248-251).

**NOTE TO PURCHASER**

This product can only be used to control Norway rats, roof rats and house mice in and around homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, feed processing equipment, agricultural and public board buildings, transport vehicle (trucks, trains, aircraft), dock and port of termionic buildings and container warehouses and associated with these areas.

**PRECAUTIONARY STATEMENTS**

**METHODS TO HUMAN AND DOMESTIC ANIMALS:**

Caution: If swallowed, do not induce vomiting. Do not give anything by mouth. If symptoms persist, seek medical advice. Do not confuse with other commodities. Do not apply to food-stuff or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in ACI reporting facilities, the product must be applied to temporary or stationary structures.

**WARRANTY:**

This product is warranted to perform as advertised. If it should fail to perform according to the label, please contact Bell Laboratories.

**DIRECTIONS FOR USE**

(Continued from other panel)

Bait and premises handling, beyond 100 feet from structures as defined above, is prohibited. This product must not be applied directly to food or feed crops. If reinfestation does occur, repeat treatment. Where a continuous source of bait is available, rats and mice are likely to continue feeding for an extended period. Do not broadcast bait.

**DIRECTIONS FOR USE**

Do not place near or inside ventilation duct openings. Do not contaminate water, food, feed or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. When used in ACI reporting facilities, the product must be applied to temporary or stationary structures. Do not contaminate soil.

Do not apply to food-stuff or feed handling equipment, or milk or meat handling equipment or surfaces that come into direct contact with food. Prevent contamination of fresh food by rats or mice. Do not apply rat or mouse control equipment to any food or feed handling equipment or surfaces that come into direct contact with food. If rat or mouse control equipment is moved, replace the product and equipment.

**SAFETY DATA SHEET**
