Kills Warfarin Resistant Norway Rats

Norway rats, roof rats, and house mice may consume a lethal dose in one night’s feeding with first dead rodents appearing four or five days after feeding begins.

**DIRECTIONS FOR USE**

**READ THE LABEL:** Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

**IMPORTANT:** Do not expose children, pets, or nontarget animals to rodenticides. To help to prevent exposure:

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, or unconsumed bait as specified on this label.

**Bait stations are mandatory for outdoor, above-ground use. Tamper-resistant bait stations must be used wherever children, pets, non-target mammals, or birds may have access to the bait placement location.**

**USE RESTRICTIONS:** This product may only be used to control the following rodent pests in and around man-made structures: House mouse (Mus musculus), Norway rat (Rattus norvegicus), Roof rat (Rattus rattus), Cotton mouse (Peromyscus gossypinus), Cotton rat (Sigmodon hispidus), Deer mouse (Peromyscus maniculatus), Eastern harvest mouse* (Reithrodontomyia humilis), Golden mouse* (Ochrotomys nuttalli), Polynesian rat* (Rattus exulans), Meadow vole* (Microtus pennsylvanicus), White-footed mouse* (Peromyscus leucopus), White-throated woodrat* (Neotoma albigula), Southern plains woodrat* (Neotoma micropus), and Mexican woodrat* (Neotoma mexicanum).

This product must be used in and within 100 feet of man-made structures constructed in a manner so as to be vulnerable to commercial rodent invasions and/or to harboring or attracting rodent infestations. Examples of such structures include homes and other permanent or temporary residences, food processing facilities, industrial and commercial buildings, trash receptacles, agricultural and public buildings, transport vehicles (ships, trains, aircraft), docks and port or terminal buildings and related structures around and associated with these sites. Fence and perimeter baiting, beyond 100 feet from a structure as defined above, is prohibited. This product must not be applied directly to food or feed crops.

**Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.**

**Pesticide Disposal:** Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. Pesticide Disposal: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility. Container Handling: Non-refillable container. Do not reuse or refill this container. Plastic: Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill; or by incineration. In most states, burning is not allowed. [Empty] Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration. In most states, burning is not allowed.

**STORAGE AND DISPOSAL**

**WARNING:** To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than as indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

**NEWT WEIGHT:** 16 lbs (7.2 kg)

Kills Warfarin Resistant Norway Rats

Norway rats, roof rats, and house mice may consume a lethal dose in one night's feeding with first dead rodents appearing four or five days after baiting begins.

**ACTIVE INGREDIENT:** Bromadiolone (CAS 120477-66-7) 0.005%

**OTHER INGREDIENTS:**
Contains Olometamor Benzoate TOTAL 100.000%

**KEEP OUT OF REACH OF CHILDREN**

See side panels for First Aid and additional precautionary statements.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish, birds and other wildlife. Dogs and predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or potential water levels (e.g., irrigation canals or ditches) are below the waterline. 

**APPLICATION DIRECTIONS:**

Determine areas where rats, mice, or meadow voles* or their signs have been seen. Protect bait from rain and snow. Remove rodent food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment immediately. Do not sell this product in individual containers holding less than 16 pounds of bait.

**STORAGE AND DISPOSAL**

Do not obtain material, food or feed handling equipment, or milk or meat handling equipment or surfaces that come into contact with pet food. Do not contaminate water, food, feedstuffs, or washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Do not use this product in sewers.

**FOLLOW-UP:** Replace contaminated or spilled bait immediately. Wearing gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection occurs, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

**PRECAUTIONARY STATEMENTS**

Hazard to Humans and Domestic Animals

**CAUTION:** Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get in eyes, on skin or on clothing. All handlers (including applicators) must wear: shoes plus socks, and waterproof gloves. Any contact with bait or bait stations must be avoided. Wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**User Safety Requirements**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**NOTES:**

- This product is nonrefillable. Do not reuse or refill this container.
- This product must not be applied directly to food or feed crops.
