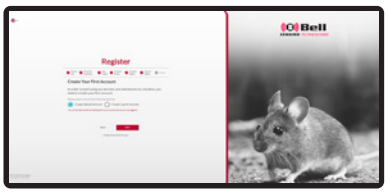
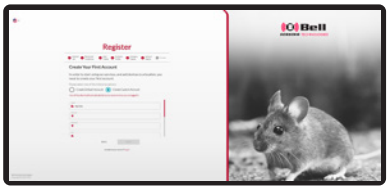
– Create a custom account name with address details

(A)



(B)



4 Check your email for verification link sent by Smart Trap (bstsupport@bellsensing.com) and click the link to activate your profile

NOTE: Only one user per company needs to register. All other users can then be added by the person who registers.

SCAN TO LEARN HOW TO EDIT USER ACCESS LEVELS

NEXT STEP: APP

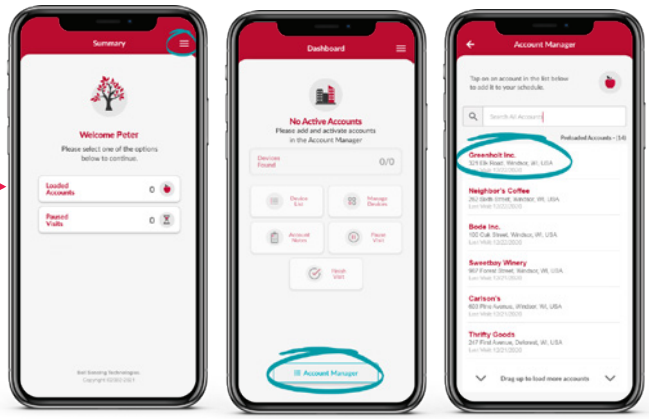
1 **DOWNLOAD** the **Bell Sensing APP** on a mobile device or tablet

Download on the App Store

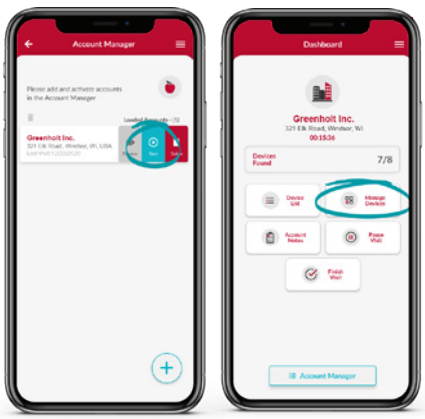
GET IT ON Google Play

2 Log in to app with email and password used for the portal

3 Select Loaded Accounts 0 and choose the account recently created in the portal



4 Select desired account and press Start to begin service visit



5 On the home dashboard, select Manage Devices

START SENSING:
ADDING DEVICES

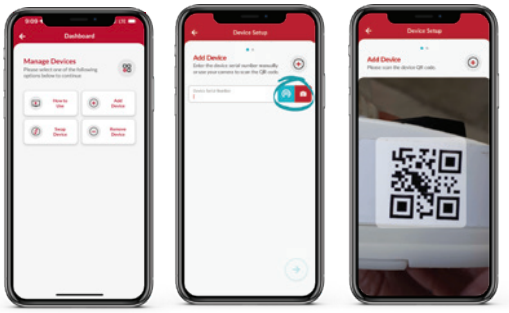
CHECK OUT THE IN-APP TRAINING VIDEOS FOR HELP WITH ADDING DEVICES!

1 After selecting Manage Devices, press Add Device

2 Select Camera icon to scan the QR code on the device

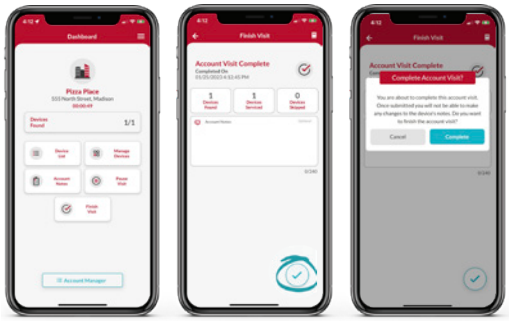
3 Select blue arrow and activate the device sensor according to device type below

4 Name device, enter device location, add bait if using a bait station, and add any custom notes to that device and press the blue check mark to add



TECHNICIAN TIP: Enter the same exact device name for same device types and the number will tick up automatically. Using this tip will only require you to type the device name on the first add. (Example: Device Name – Bait Station 001, the next added same device type will automatically add Bait Station and tick the number up to 002). Do not add a number in the device name field.

5 Once all devices are successfully added to the account, ensure to go back to the Account Dashboard and click Finish Visit. Finally, click the green check mark icon in bottom right hand corner of Finish Visit screen and click Complete to finish the service visit which will send the data to the cloud to ensure all devices are saved to the selected account



HOW TO WAKE UP DEVICES

PRODUCT LINE UP
