

T1 RAT & T1 MOUSE

WITH BROMETHALIN

PRE-BAITED DISPOSABLE RODENT STATIONS

The highest level of tamper-resistance based on EPA guidelines

PRODUCT FEATURES

- Each station contains the acute, single-feed active ingredient bromethalin, so less bait is required versus anticoagulants*
- Resists tampering by children and dogs
- Ideal for residential accounts - use by fridges, in garages, and more**
- Transparent lid make it easy to know when bait is gone
- Simply throw away once bait is gone***

PRODUCT	CODE	CASE QUANTITY
T1 Rat (1-pack)	DR0811	8 ctn/case
T1 Mouse (1-pack)	DM2411	24 ctn/case
T1 Mouse (4-pack)	DM4814	12 ctn/case

THE WORLD LEADER IN RODENT CONTROL TECHNOLOGY®

www.belllabs.com

* Rodents may consume a lethal dose and cease feeding on bait in a single night, resulting in less bait used in comparison to anticoagulant rodenticides

** As best practice, always place bait stations out of reach of children and pets

*** Do not throw away bait stations that still have rodenticide in them. If you must throw it away, contact your local solid waste disposal facility for guidance.
